## About us

**MAXHolds** is about maximum holds! We specialize in manufacturing climbing holds, macros, volumes and training equipment. Innovation from the art of engineering leads MAXHolds commercial use in the climbing gyms and sporting centers. The need to develop and research is contained within our motto '**Innovative Climbing, Clean Training**'.

**MAXHolds** have special friction on its texture, suitable for all climbers seeking a positive sense of indoor rock climbing.

Our effort is to bring innovative climbing and clean training to the new generation of the climbers.

Our promises to the route setters are convenient installation and diversity in design and shapes.

**MAXHolds** is classified into the three main product series; **Polygonal Volumes**, **Rounded Volumes** and **Dual Texture** series abbreviated in **PV**, **RV** and **D-tag**. These series are consisted with both climbing volumes and macros.

**PV Series:** great to rebuild the wall and or different dimensions.

**RV Series:** fruitful for functional training and diverse setting of slopers.

**D-tag** or Dual Texture: sufficient challenge and competition based holds.

# LEAVES

A photograph of a person climbing a rock wall. The climber is wearing a dark long-sleeved shirt, dark pants, and a patterned beanie. They are reaching up with their right hand to grasp a hold. The rock wall is light-colored with several large, dark, leaf-shaped holds. A yellow text box with the word 'LEAVES' in bold, yellow, sans-serif font is positioned on the left side of the image. A thin yellow line extends from the right side of the text box, pointing towards the hold the climber is reaching for. The overall lighting is warm and slightly dim, creating a focused atmosphere on the climber's action.

A black and white photograph of a man climbing a rock wall. The man is in a horizontal position, reaching up with his right hand to grip a hold. A red rectangular box is superimposed over the image, containing the word "LIPS" in large, bold, red capital letters. A thin red line extends from the top-left corner of this box to a specific hold on the rock wall. The rock wall is covered in numerous small, circular holes. The man is wearing a dark t-shirt and shorts. The lighting creates strong shadows on the wall.

A man in a tank top and shorts is climbing a wooden wall. He is reaching up with his right arm towards a large black speaker. Another large black speaker is on the wall to his left. A smaller speaker is on the wall below him. A sign with the text 'A2' is on the wall to the right. The wall is made of wooden panels with many small holes. The overall color is a monochromatic olive green.

A black and white photograph of a man working on a climbing wall. He is positioned on the left side of the frame, looking upwards and reaching towards a large, light-colored, curved rock feature. The wall is covered in various climbing holds, including a large, dark, curved hold above him. A yellow callout box with the word "STUMPS" in bold, yellow, sans-serif font is overlaid on the image, with a thin yellow line pointing to a small, white, oval-shaped hold on the rock feature. In the background, another person is visible on a ladder, working on a different part of the wall. The ladder has "Innova Climbing Harmony" written on it. The overall scene is an indoor climbing gym.

# TECHNICAL INFO

## Materials & Textures

MAXHolds products are being manufactured with fiberglass reinforced polyester and mixed polyester materials. As we are obsessed about the quality and diversity of our products. We use anti-scratch coating material with a fine texture. There are two available mesh sizes made our holds, micro and fine.

To have a perfect feeling of indoor rockclimbing, in a normal manufacturing process, the fine-mesh is applied in our productions. Mostly micro-mesh will be added in the natural wooden-holds. SiO<sub>2</sub> (silicon dioxide) is being used to texture our fiberglass volumes.

micro-mesh    fine-mesh

### Fixing

The fixing procedure is based on the standard M10 bolts and 4.5mm wood screws. Please note that all hole screws are tighten while setting a particular beta.

### Cleaning

We recommend to use pressurized water washing with no chemical additives.

## Shapes and Design

MAXHolds is always seeking for a cutting edge design and manufacturing. Our shapers are mockup creators of both hand-made and CAD (computer aided design) experts. Therefore, considering a rapid prototype and development, please feel free to contact us for your particular shape to be real!

## Color Chart

the RAL color chart, standard system, is being used in our productions. Please contact us, for dual-color, RAL code enquiry, and the customized color code.

<b>RAL 9005</b>	<b>RAL 9010</b>	<b>RAL 1023</b>	<b>RAL 6037</b>	<b>RAL 5015</b>
<b>RAL 3020</b>	<b>RAL 2004</b>	<b>RAL 4008</b>	<b>RAL 4010</b>	<b>RAL 7040</b>

**Business Partnership, Sponsorships, and Distribution**

Considering our motto, "Innovative Climbing, Clean Training", MAXHolds priority is to take part in the climbing events all around the world. Please contact us for business partnership, distribution, and sponsorship programs.
